

FY22-23 Bulla Milk Supply Agreement

Bulla Standard Form MSA

Statement of Circumstances

As at 1 June 2023 Bulla would enter into the Bulla Milk Supply Agreement if the following circumstances exist:

1. The supplier has a current Dairy Food Safety Licence
2. Bulla has not already met its total supply requirements for any of the months for the supplier's specific region for F24
3. The term of the Milk Supply Agreement is the period commencing 1 July 2023 and ending on 30 June 2024
4. The supplier complies with all mandatory legal requirements in relation to milk production and supply, including the environment and animal welfare
5. New suppliers to Bulla are able to demonstrate a record of supply with less than 1.8 peak (Sep-Nov)/trough (Feb-Apr) Total milk solids ratio over the past 2 years
6. New suppliers are able to contract for a minimum of 800,000 litres of milk
7. Sufficient production capacity for a minimum daily milk collection of 500L
8. The location of the supplier's farm is consistent with Bulla's current collections zones as set out below.
9. The supplier is otherwise able to comply with the obligations set out in the FY23-24 Bulla Milk Supply Agreement
