

FY26-27 Bulla Milk Supply Agreement

Bulla Standard Form MSA

Statement of Circumstances

Bulla will enter into the Bulla Milk Supply Agreement with a supplier if the following circumstances exist:

- The supplier has a current Dairy Food Safety Licence.
- The supplier's dairy farm is located within one of Bulla's Milk Supply Collection Zones (as identified below) and Bulla has not already met its total supply requirements for any of the months in FY26-27 for that Milk Supply Collection Zone.
- The term of the Milk Supply Agreement is the period commencing on or after 1 July 2026 and ending on 30 June 2027.
- The supplier complies with all mandatory legal requirements in relation to milk production and supply, including the environment and animal welfare, and satisfies Bulla's standard assessment and verification checks.
- The supplier has a history of compliance with Bulla's milk quality standards and quality assurance program (or if a new supplier to Bulla, can provide reasonable proof of compliance with another processor's quality standards and program).
- If the supplier is a new supplier to Bulla, they are able to demonstrate a record of supply with less than a 1.8 peak (Sep-Nov) to trough (Feb-Apr) total milk solids ratio over the past two milk seasons and contract for a minimum of 800,000 litres of milk in FY26-27.
- The supplier has sufficient production capacity for a minimum daily milk collection of 500L.
- The supplier is otherwise able to comply with the obligations set out in the FY26-27 Bulla Milk Supply Agreement.
